FOR IMMEDIATE RELEASE

Jessi Robertson "Small Town Girls" Album Release New Album Available Everywhere March 1, 2011 Album Release Event February 26, 2011 at Brooklyn's Bar 4

Brooklyn-based singer/songwriter Jessi Robertson will officially release her first full band album, titled "Small Town Girls," on March 1, 2011. The album will be available through iTunes, CD Baby, Amazon and most major online outlets.

Supporting the release, Jessi will perform songs from the album at a special pre-release show at 10 p.m. on February 26, 2011 at Bar 4 in Brooklyn.

"Small Town Girls" showcases Jessi's electric folk sound while lyrically exploring the loneliness and alienation that have become haunting themes in her work. The album was produced by Chris Cubeta (Wakey!Wakey!, Harper Blynn) at GaluminumFoil Productions in Brooklyn, and features Greg Tuohey (Lowry) on guitar and Ryan Vaughn on drums.

10% of album proceeds will be donated to RAINN (<http://www.rainn.org>), the nation's largest anti-sexual violence organization.

ABOUT JESSI ROBERTSON

Musically, Jessi lives on the divide between gutsy indie rockers such as PJ Harvey and gritty Americana artists like Lucinda Williams. Embracing this duality, her performances can feel as intimate as a conversation, or as deep and wide as an ocean, and Jessi refuses to shy away from difficult subjects. In her previous release, "Who We Are, What We Have Done" (2008), Jessi carved out an electronic and folk niche, blending that sound with intensely personal lyrics. On "Small Town Girls," she opens up wider, focusing her lyrical gaze on issues of domestic violence, mental illness and alienation. Yet woven throughout the album is unflinching hope, too, and it sheds light into Jessi's own darkest corners. Jessi's songs have been recently featured on Style Network's season 3 premiere of "Giuliana & Bill."
